

Bug Report

Use this template to report incorrect output, wrong tier routing, a missed anomaly, or an agent crash.

1 · What happened?

One-sentence summary of the issue.

2 · Expected behaviour

What should the agent have done?

3 · Actual behaviour

What did it do instead?

4 · Input details

Input file name / row count	
PO Numbers affected	
Agent version	src/version.py

5 • Relevant log lines

Paste from agent_log_<timestamp>.txt

```
2026-MM-DDTHH:MM:SSZ ERROR      <paste log lines here>
```

6 • Reproduction steps

```
python src/main.py --input <file> --verbose
```

7 • Category

- Validation rule (false positive / false negative)
- Approval tier routing (wrong tier assigned)
- Anomaly detection (flag missed or incorrect)
- Output file (missing sheet, wrong formatting)
- Agent crash / unhandled exception
- Other
